

**Northern Area Motor Caravan Section**  
**COVID-19: Onsite Operational Procedures**

In order to operate Meets and Temporary Holiday Sites in a responsible manner for both members and stewards, please note the procedures outline below working alongside normal operating procedures.

Our approach will at all stages be:

- Observe social distancing procedures following government guidelines.
- Observe hygiene and cleaning procedures.
- Campers are responsible for their own hand sanitiser and cleaning items with them prior to arrival.
- A Meet and THS is a campsite by which each member has a pitch, this is not a social gathering and no activities of social gathering are to occur on site.
- There are strictly no day visitors on site.
- Every individual is required to act responsibly and honestly in order to protect others.

### **Social Gatherings**

- All campers are reminded this is an individually pitched campsite and not a social event or gathering
- Campers are reminded at all times to be mindful of the guidelines outlined by the Steward to ensure site teams and fellow campers are safe at all times.
- Social gathering are not to occur while onsite, this applies but not limited to:
  - Communal BBQ's other than within your camping group
  - Marquees for social group gatherings
  - Bingo / group games
  - Coffee mornings
  - Sports and team activities
  - Discos and group entertainment
- Gatherings and/or social events are not permitted onsite unless within agreed Government social bubbles
- No members to gather in awnings or caravans/motorhomes (unless Government guidelines allow).
- Members are encouraged to not let their children roam unsupervised around the campsite so they do not, albeit inadvertently, break social distancing rules.
